Study Tour Strategy

Study Tours Gold Coast is dedicated to making your visit to Australia not only memorable but easy and enjoyable. We will cater for all your Study Tours needs; so that you and your students can relax and enjoy a truly Australian Experience.

The Study Tour is made up of English language studies which are arranged for the students each morning Monday to Friday plus a variety of activities organised for them to participate in and enjoy. They will see and experience the lifestyle and climate of the beautiful Gold Coast as well as learning a variety of skills while they are here. Australians are known for their love of sports, outdoor activity and enjoyment. We have included a wide variety of activities that reflect our Australian culture as well as offering students a variety of options according to their interests.

We have included some sample tours which can easily be customised to suit the length of time and activity requirements of your group.

The students will be lodged with Australian families, in a home environment, so that they can better understand our customs, living habits and family structure. Should any children require specialised eating requirements, we are only too happy to accommodate provided we are advised prior to your visit.

All teachers and supervisors will be catered for within the quoted costs per student; they will be placed in separate accommodation units close to the primary place of study.

The Study Tour groups will be provided with a guide for all days except for the free days which they spend with their Home Stay families.

Each Sunday we will take the group to a different Theme Park where they will experience a wide variety of fun and excitement. Many of the Parks provide a student program and where these are available we will organise such a program.

We have included all of the activities, accommodation and costs in our quotes. We will ensure that they will be looked after in every aspect so that they can maximize their enjoyment and experience of the Gold Coast.

We look forward to hearing from you and working with you to make your Study Tour an experience of a life time.

Rebirthing Breathwork is a conscious, connected body/breath technique which activates an inner non-mundane experience. This results in a number of internal experiences. One is where thoughts, pains, memories or feelings or energies that have been held down with the breath, are able to surface to be released, cleared or resolved. The process is freeing of limitations from previous decisions, beliefs or conditioning.

This also can include the psycho-emotional aspects of your physical birth, in-utero experience and early infancy and their psycho-spiritual implications. The opportunity is to decondition and reprogramme self. In the non mundane experience of a Rebirthing Breathwork Mastery session, a new perspective to life issues emerges. The continued process brings a point of choice or free-to-be-in-action instead of reaction to events and people. In a breath cycle of approximately 90 minutes duration, the full and connected breathing accelerates detoxification in the body. This cleanse extends from the physical into an emotional, mental and/or spiritual experience.
